

Cadaver Dissection Course

FALL - 2022 Biology 848NV Rm S202 or S208

This FALL - 2022 semester, Merritt College will provide a course rarely offered anywhere in the nation that will give students instruction and training in fine dissection, cleaning, identifying, and tagging of structures of the human body. Goals will include the conservation and preservation of specific cadaver structures. This course, beginning Sept. 23, 2022 is open for direct enrollment and will be held Friday evenings, 6- 10pm, in the Merritt College Anatomy Lab. Space is limited. There are no grades or credit units.

For more information on the course, contact instructor: Professora Em Segmen
esegmen@comcast.net

Cost of course:
\$55 per session for multiple sessions (paid in advance)
\$60 per single session (option)

4 cadavers for all sessions

FALL Lab Dates, Fridays 5 – 9:30 PM

Sept. 23rd

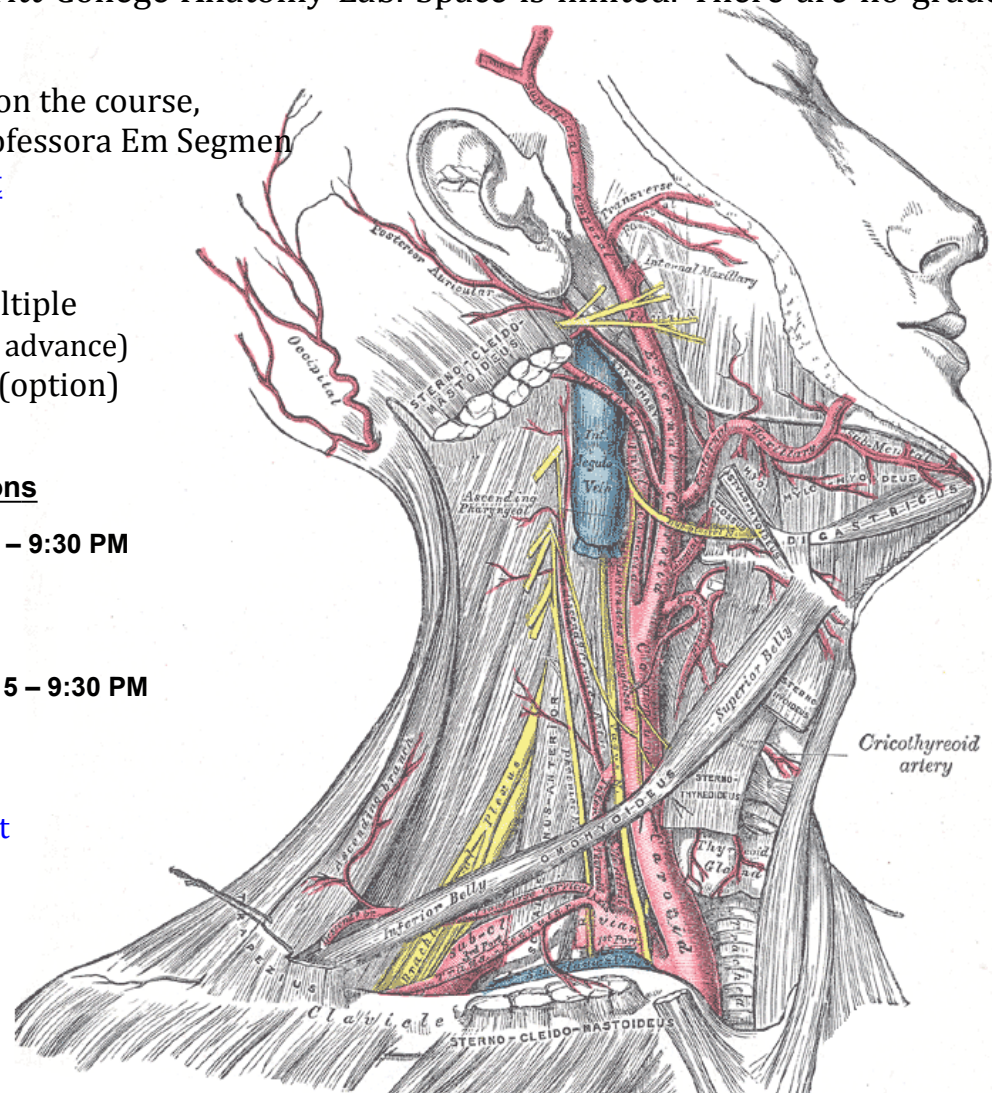

Oct. 21st

Nov. 4th

SPRING Lab Dates, Friday 5 – 9:30 PM

Feb. 3rd

Contact Professora Em at esegmen@comcast.net develop clarity of anatomical landmarks

HOW TO ENROLL: Do not enroll online. Enroll at S202 at the Lab. Bring check or money order (no cash), payable to Merritt College (note on check Bio. 848NV Cadaver Dis.). I will have an enrollment and “set up” festivity from 5 to 5:45 PM every lab day. You can come during that period and enroll and then help me set up the cadavers, tools, atlases, and other accessories such as gloves, aprons and lab coats. At 6:00 PM I’ll invite you to invoke the ideals of community (mutual regard and respect) and we’ll begin the class.
